G V Mavalankar Camp

The main goal of a shooting competition is to hit the target accurately. In events like the 50m Rifle Prone Event, a smallbore rifle is used, typically weighing between 3-4 kg and firing a .22 caliber round. Judges oversee the competition to ensure fairness. The Mavalankar selection takes place from April 18th to April 30th. In the 50m Rifle 3 Positions event, shooters must wear a shooting jacket and use a sling for support. A shooting stand is used to provide stability for the shooter. In the 10m Air Rifle competition, competitors are allowed 10 shots in the final round.
